

Crawler Crane Undercarriage Parts-----Track Roller & Top Roller

1. Product description

(1) Material: 40Mn2.

(2) Technology: Forging

(3) Heat Treatment: Overall hardening and tempering, surface hardening.

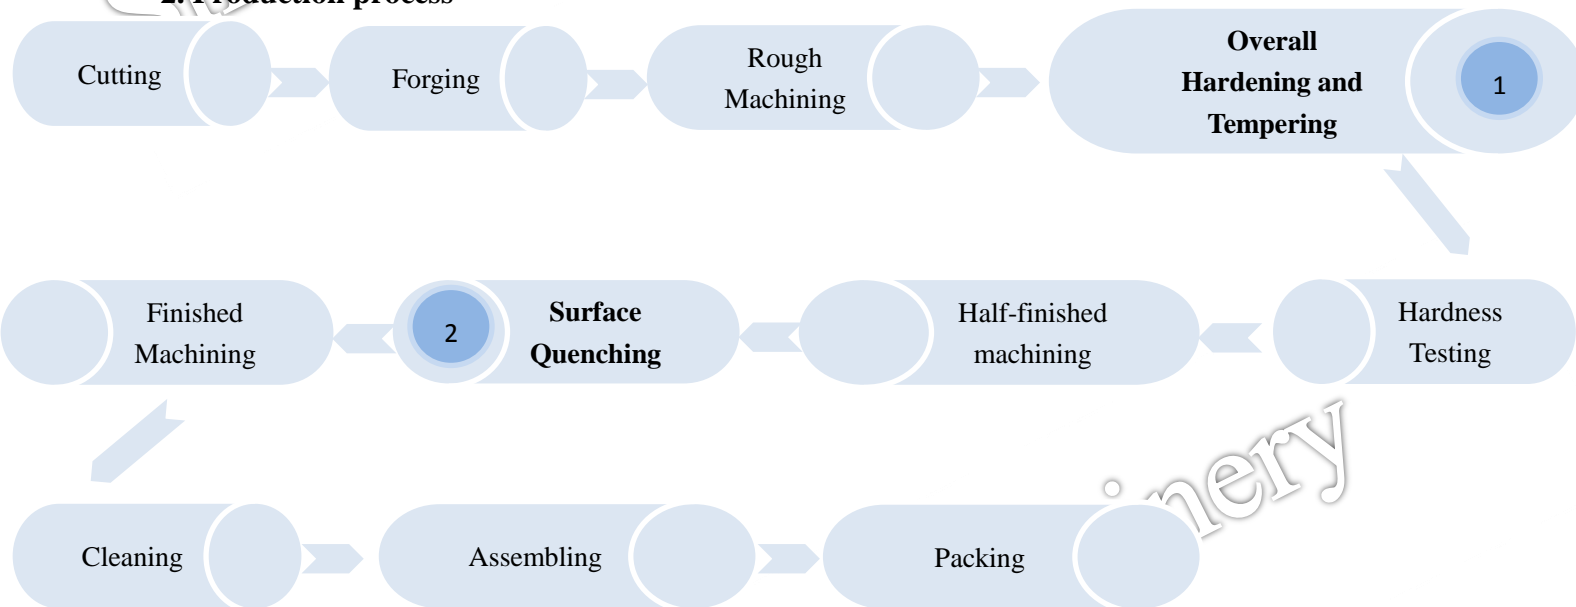

(4) Warranty: 2000-2500 working hours

(5) Application:

a. Track roller is used to support the weight of the crane body and roll on the track shoes so that the machine travels along the tracks shoes. It is also used to hold track shoes so that it does not slip along the transverse direction and forces the track to slip on the floor when turning.

b. Top roller is assembled on the crawler frame and hold up the track shoes, and make the crawler shoes has a certain tension.

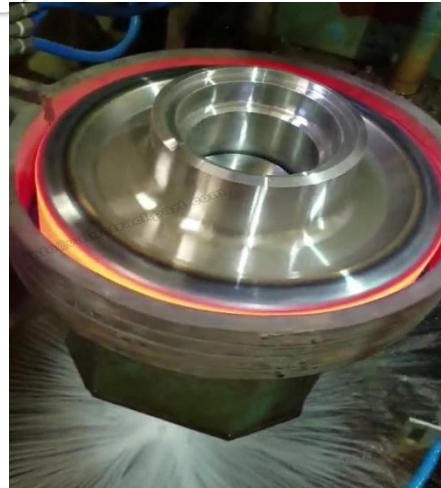

2. Production process

1 Overall Hardening and Tempering

2 Surface Quenching

3. Inspection & Test Reports

4. Advantages

- (1) Quality Assurance: we have strict quality control during the production process. We can offer the material report and test report. If the product was broken in quality guarantee period, we can ship new one to you.
- (2) Professional Sale&Service Team: 24 hours online, best service here for you anytime. Any question, please free contact us.
- (3) Professional Engineers: Our engineers have rich experience and deal with this line more than 15 years. In our here, you can get the most professional answer for your crawler crane undercarriage parts.
- (4) Factory and Warehouse: we update our products regularly and explore more kinds of parts to meet customers' demands. For the common parts, we keep enough stock all the time.

XCMG	QUY 38-350 ton

7. Related products

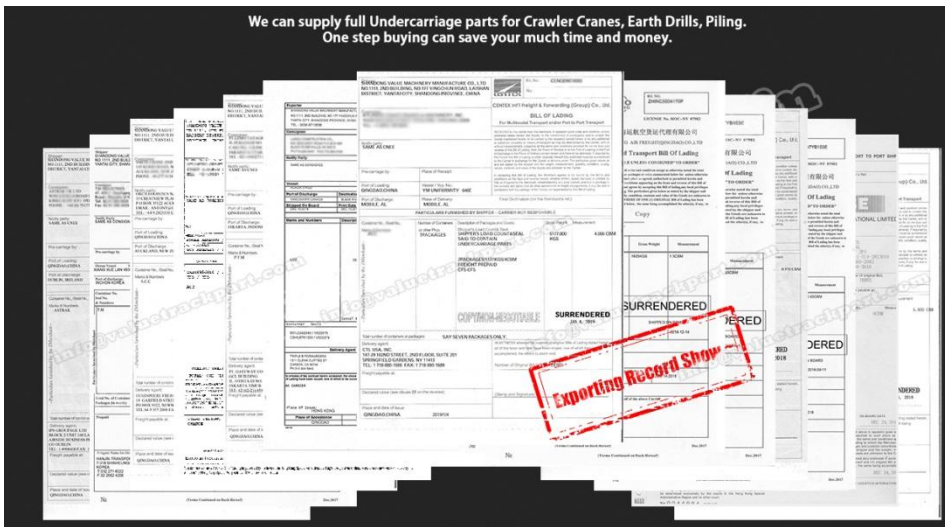

Except the track roller and top roller, other parts for crawler crane, such as track shoe/track pad/track plate, sprocket and idler. These parts are all our supply and manufacture.

OEM Quality Undercarriage Parts

 Track Roller	 Sprocket	 Top Roller	 Idler
 Track Shoe	 Other Parts		 Idler

8. Exported orders

9. About us

Shandong Value Machinery Manufacture Co., Ltd has focused on high-quality crawler crane undercarriage parts for many years in China. We are one of the leading suppliers of crawler crane undercarriage parts in crane parts industry and export our products to 20 different countries.

We commit ourselves to the R&D and Production with some famous manufacturers. Our main products are Undercarriage Parts for Crawler crane, such as track shoe, track link, drive chain, track roller, top roller, idler, sprocket, etc.

We aim to supply best quality undercarriage parts for our customer, mainly for Hitachi, Sumitomo, Kobelco, IHI, Nippon Sharyo, Hitachi Sumitomo, Sany, Fuwa, XCMG, Zoomlion, Manitowoc, Demag, Terex, American, Link-Belt and so forth brands crane.
